

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Bachelor of Technology (Civil Engineering) SEMESTER - 6 Winter 2025 (Supply.)

Course :Bachelor of Technology (Civil Engineering) Branch : Engineering and Technology

Semester : SEMESTER - 6

Subject Code & Name: BTCVPE604J - ENGINEERING MANAGEMENT

Time : 3 Hours]

[Total Marks : 60

Instructions to the Students:

1. Each question carries 12 marks.
 2. Question No. 1 will be compulsory and include objective-type questions.
 3. Candidates are required to attempt any four questions from Question No. 2 to Question No. 6
 4. Use of non-programmable scientific calculators is allowed.
 5. Assume suitable data wherever necessary and mention it clearly.
-

- Q1. Objective type questions. (Compulsory Question) 12
- 1 Which concept links individual goals to organizational objectives?
 - A. MBO – Management by Objectives
 - B. TQM – Total Quality Management
 - C. ERP – Enterprise Resource Planning
 - D. SWOT – Strength Weakness Opportunity Threat
 - 2 An identified group of people contributing their efforts towards the attainment of goals is called an
 - A) organization
 - B) business
 - C) management
 - D) department
 - 3 Monte Carlo simulation is based on:
 - A. Deterministic inputs
 - B. Random number generation
 - C. Queuing priority
 - D. Exact equations
 - 4 In store management, what is the purpose of a 'reorder level'?
 - A. To determine the maximum inventory that can be stored
 - B. To identify the point at which a new order should be placed
 - C. To categorize materials for storage
 - D. To calculate the safety stock
 - 5 Assignment models are used to:
 - A. Distribute goods to markets
 - B. Allocate tasks/resources optimally
 - C. Analyze inventory
 - D. Select communication channels

- 6 Which of the following is NOT a function of management?
 - A. Planning
 - B. Organizing
 - C. Staffing
 - D. Programming
- 7 Which leadership style involves employee participation in decision-making?
 - A. Autocratic
 - B. Laissez-faire
 - C. Democratic
 - D. Bureaucratic
- 8 The main objective of value engineering is to:
 - A. Reduce quality
 - B. Reduce cost without affecting function
 - C. Increase production time
 - D. Improve aesthetics only
- 9 Which of the following is NOT a component of an L.P. model?
 - A. Objective function
 - B. Constraints
 - C. Feedback loop
 - D. Decision variables
- 10 Safety stock is maintained to:
 - A. Increase inventory turnover
 - B. Handle sudden increases in demand or delays in supply
 - C. Lower procurement costs
 - D. Decrease warehouse space requirements
- 11 Centralization results in:
 - A. Faster decisions at lower levels
 - B. More authority at top management
 - C. More freedom at grassroots level
 - D. Equal decision-making power
- 12 Theory X assumes that employees:
 - A. Enjoy work
 - B. Are self-motivated
 - C. Prefer autonomy
 - D. Dislike work and need supervision

Q2. Solve the following.

- A) Explain the principles of management. 6
- B) Describe McGregor's Theory X and Theory Y. Which theory is more suited to managing a team in a workplace and why? 6

Q3. Solve the following.

- A) Explain briefly: Simulation and Monte Carlo Techniques. 6
- B) Define Linear Programming. What are the essential components and assumptions of a Linear Programming model? 6

Q4. Solve Any Two of the following.

- A) What is Management by Objectives (MBO)? Explain its process and benefits. 6
- B) Define decision making. Explain various types of decision with suitable example. 6

- C) What is a queuing system? Describe the characteristics of a single-channel queuing model. 6

Q5. Solve Any Two of the following.

- A) Define Game Theory. Distinguish between pure strategy and mixed strategy with suitable examples. 6
- B) Define Inventory Control. Write down objectives and functions of Inventory Control. 6
- C) Explain shortly: 6
A. Line and Staff organization
B. Principle of site layout

Q6. Solve Any Two of the following.

- A) Explain briefly ABC analysis with its procedure and diagram. 6
- B) What is Expected Monetary Value (EMV)? Explain how it is used in evaluating different decision alternatives. 6
- C) Define material management. What are its objectives and significance in a manufacturing organization? 6
