

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Bachelor of Technology (Civil and infrastructure Engineering) SEMESTER - 7 Winter 2025 (Supply.)

Course :Bachelor of Technology (Civil and infrastructure Engineering) Branch : Engineering and Technology

Semester : SEMESTER - 7

Subject Code & Name: BTCIOE706B - DISASTERS MANAGEMENT:PREPAREDNESS & PLANNING

Time : 3 Hours]

[Total Marks : 60

Instructions to the Students:

- 1.Each question carries 12 marks.
 - 2.Question No. 1 will be compulsory and include objective-type questions.
 - 3.Candidates are required to attempt any four questions from Question No. 2 to Question No.6
 - 4.Use of non-programmable scientific calculators is allowed.
 - 5.Assume suitable data wherever necessary and mention it clearly.
-

Q1. Objective type questions. (Compulsory Question) 12

- 1 A hazard becomes a disaster when:
 - A. It is reported in media
 - B. It causes significant loss to life or property
 - C. It occurs in remote areas only
 - D. It is predictable
- 2 Which of the following is an *indirect* effect of disasters?
 - A. Immediate casualties
 - B. Destruction of infrastructure
 - C. Economic loss and unemployment
 - D. Collapse of buildings
- 3 Which natural disaster is commonly associated with prolonged deficit of rainfall?
 - A. Cyclone
 - B. Drought
 - C. Avalanche
 - D. Mudflow

- 4 A sudden discharge of water from a cloud is best described as:
- A. Flood
 - B. Cloud burst
 - C. Storm surge
 - D. Mudflow
- 5 Ozone depletion mainly results in an increase in:
- A. Earthquakes
 - B. UV radiation
 - C. Cyclonic activity
 - D. Sea floor spreading
- 6 Manmade disasters occur frequently due to:
- A. Controlled industrial growth
 - B. Population reduction
 - C. Rapid urbanization and unsafe practices
 - D. Improved technology
- 7 The shift in India's disaster management approach after 2005 focuses on:
- A. Response-centered approach
 - B. Relief-based approach
 - C. Reconstruction-first approach
 - D. Mitigation and preparedness-focused approach
- 8 The National Disaster Response Force (NDRF) works under:
- A. NDMA
 - B. NIDM
 - C. Home Ministry
 - D. Ministry of Environment
- 9 GIS is primarily used in disaster management for:
- A. Social media awareness
 - B. Mapping vulnerable zones
 - C. Issuing legal notices
 - D. Insurance settlements

- 10 Which agency coordinates with international relief organizations during extreme events?
- A. RBI
 - B. NDMA
 - C. UNDP
 - D. IMD
- 11 Structural mitigation measure among the following is:
- A. Community training
 - B. Early warning systems
 - C. Sea walls and embankments
 - D. Insurance coverage
- 12 Risk financing involves:
- A. Creating evacuation routes
 - B. Providing shelters
 - C. Transferring financial burden through insurance
 - D. Mapping hazard zones
- Q2. Solve the following.
- A) Discuss the various sources of funding for disaster relief and the legal aspects associated with it. 6
 - B) Explain the structural and non-structural mitigation measures used to reduce disaster risks. 6
- Q3. Solve the following. <https://www.batuonline.com>
- A) Explain the concepts of disaster, hazard, vulnerability, and risk with suitable examples. 6
 - B) Discuss the direct and indirect effects of disasters on human life and the environment. 6
- Q4. Solve Any Two of the following.
- A) Describe any four major natural disasters in India and explain their causative factors. 6
 - B) Explain the role of industrialization and changing human lifestyle in increasing manmade disasters. 6
 - C) Discuss in detail Bhopal gas tragedy (1984). 6
- Q5. Solve Any Two of the following.
- A) Discuss the principles and objectives of disaster management policies in India. 6
 - B) Explain the general procedure of initiating and conducting rescue operations during a major disaster. 6
 - C) Discuss in detail Kedarnath catastrophic flash flood and landslide (2013). 6
- Q6. Solve Any Two of the following.
- A) Describe the organizational structure and responsibilities of NDMA and NIDM in disaster management. 6
 - B) Explain the importance of communication systems and GIS/Remote Sensing in effective disaster management. 6
 - C) Discuss in detail Killari (Latur) 1993 earthquake. 6
