

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE						
Regular and Supplementary Winter Examination – 2024						
Course: B. Tech.		Branch : Civil Engineering		Semester : VII		
Subject Code & Name: BTCVC704 & Professional Practices						
Max Marks: 60		Date: 12/02/2025		Duration: 3 Hr.		
Instructions to the Students:						
Each question carries 12 marks.						
Question No. 1 will be compulsory and include objective-type questions.						
Candidates are required to attempt any four questions from Question No. 2 to Question No. 6.						
The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question.						
5. Use of non-programmable scientific calculators is allowed.						
6. Assume suitable data wherever necessary and mention it clearly.						
					(Level/CO)	Marks
Q. 1	Objective type questions. (Compulsory Question)					12
1	What is the primary purpose of an estimate in construction projects?				(L2/CO1)	1
	a. To forecast the budget and resources required	b. To design the building layout	c. To manage the workforce only	d. To approve structural designs		
	What is the P.W.D method used for in estimation?				(L1/CO1)	1
	a. Site layout planning	b. Taking out quantities systematically	c. Equipment procurement	d. Safety audit of the site		
3	What does "analysis of rates" primarily help in determining?				(L2/CO2)	1
	a. Workforce skill level	b. Unit cost of different construction items	c. Project timeline	d. Environmental impact		
4	What does "price escalation" in a project account for?				(L4/CO2)	1
	a. Increased labor efficiency	b. Change in material costs over time	c. Decrease in project size	d. Additional safety requirements		
	Which of the following is a major advantage of competitive bidding?				(L2/CO3)	1
	a. Ensures a single contractor wins every bid	b. Promotes fairness and cost-effectiveness	c. Avoids quality inspections	d. Reduces documentation requirements		
6	What are the conditions of a contract primarily used for?				(L2/CO3)	1
	a. Hiring temporary workers	b. Defining terms, obligations,	c. Determining rates for tenders	d. Managing physical site layout		

		and legal binding				
7	What does B.O.T stand for in construction projects?				(L1/CO3)	1
	a. Build, Operate, Transfer	b. Build, Offer, Terminate	c. Base, Operate, Takeover	d. Budget, Operate, Target		
8	Which of the following is an essential component of a legally valid contract?				(L2/CO4)	1
	a. Mutual agreement between parties	b. Verbal communication only	c. Immediate cash payments	d. Approval from the workers		
9	What is the main purpose of arbitration in contracts?				(L4/CO4)	1
	a. To avoid legal procedures altogether	b. To resolve disputes between parties	c. To finalize project costs	d. To delay payment methods		
10	How are works classified under the P.W.D organizational structure?				(L1/CO4)	1
	a. Based on urgency only	b. According to the types of tasks and costs involved	c. By geographic location	d. By project duration only		
	What is the primary factor affecting the valuation of a property?				(L2/CO5)	1
	a. Weather conditions	b. Market demand and location	c. Type of equipment used in construction	d. Contractor's workforce size		
12	Which method is used to calculate the depreciation of buildings over time?				(L3/CO5)	1
	a. Gross Yield Method	b. Sinking Fund Method	c. Arbitrary Cost Method	d. Tender Evaluation Method		
Q. 2	Solve the following.					12
A)	What is the purpose of estimating in civil engineering projects? Discuss the types of estimates and explain their importance.				(L2/CO1)	6
B)	Describe the process of taking out quantities using the P.W.D. method. Why is it considered systematic?				(L3/CO1)	6
Q.3	Solve the following.					12
A)	Explain how the analysis of rates is carried out for an R.C.C. slab. What factors influence rate analysis?				(L4/CO2)	6
B)	Differentiate between detailed and approximate estimates. Give examples of when each is used.				(L2/CO2)	6

Q. 4	Solve Any Two of the following.		12
A)	What are the different types of tenders? Explain competitive bidding and its advantages.	(L4/CO3)	6
B)	Describe the key components of tender documents and their significance in a construction project.	(L2/CO3)	6
C)	What is the significance of scrutinizing tenders? Discuss the steps involved in tender scrutiny and acceptance.	(L5/CO3)	6
Q. 5	Solve Any Two of the following.		12
A)	What are the essentials of a legally valid contract in civil engineering works?	(L2/CO4)	6
B)	Explain the methods of carrying out work under P.W.D. and the role of bill forms in payment.	(L3/CO4)	6
C)	What is arbitration, and how does it resolve disputes in civil engineering contracts?	(L4/CO4)	6
Q. 6	Solve Any Two of the following.		12
A)	Define depreciation and explain any two methods of calculating it in property valuation.	(L2/CO5)	6
B)	What are the factors affecting the valuation of properties?	(L4/CO5)	6
	Explain the concept of sinking fund and its importance in property valuation.	(L3/CO5)	6
