

**DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE**

**Regular Summer Examination – 2024**

**Course:** B.Tech. **Branch:** Electronics and Computer Engineering **Semester:** VI

**Subject Code & Name:** Internet of Things ( BTECPC601)

**Max Marks:** 60

**Date:** 13 / 06 / 2024

**Duration:** 3 Hr.

**Instructions to the Students:**

1. All the questions are compulsory.
2. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in ( ) in front of the question.
3. Use of non-programmable scientific calculators is allowed.
4. Assume suitable data wherever necessary and mention it clearly.

|                                                                   | (Level/CO) | Marks     |
|-------------------------------------------------------------------|------------|-----------|
| <b>Q. 1 Solve Any Two of the following.</b>                       |            | <b>12</b> |
| A) Define IoT & Explain it's types.                               | CO2        | 6         |
| B) Explain Cloud Computing & Big data analytics.                  | CO2        | 6         |
| C) Difference between IoT vs M2M.                                 | CO2        | 6         |
| <b>Q.2 Solve Any Two of the following.</b>                        |            | <b>12</b> |
| A) Describe 'C' programming structure.                            | CO2        | 6         |
| B) Pin diagram of NodeMCU:8266 Wi-Fi Module.                      | CO3        | 6         |
| C) Explain steps to setup NodeMCU(ESP8266) on Arduino IDE.        | CO3        | 6         |
| <b>Q. 3 Solve Any Two of the following.</b>                       |            | <b>12</b> |
| A) Describe 'Python' programming structure.                       | CO4        | 6         |
| B) What is Raspberry Pi?                                          | CO4        | 6         |
| C) Elaborate Basic Linux Commands.                                | CO4        | 6         |
| <b>Q.4 Solve Any Two of the following.</b>                        |            | <b>12</b> |
| A) Explain configuration of NodeMCU to connect to the Server.     | CO5        | 6         |
| B) Describe Interfacing of Raspberry Pi with WhatsApp or Twitter. | CO5        | 6         |
| C) UART.                                                          | CO5        | 6         |
| <b>Q. 5 Solve Any Two of the following.</b>                       |            | <b>12</b> |
| A) BLE                                                            | CO6        | 6         |
| B) MQTT                                                           | CO6        | 6         |
| C) DDS                                                            | CO6        | 6         |

**\*\*\* End \*\*\***
