

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE**Regular/Supplementary Winter Examination – 2024****Course: B.Tech****Branch : Electronics and Computer Engineering/ Electronics and
Computer Science****Semester : V****Subject Code & Name: BTECPC501 Computer Networks and Cloud Computing****Max Marks: 60****Date:06/02/2025****Duration: 3 Hr.****Instructions to the Students:**

1. Each question carries 12 marks.
2. Question No. 1 will be compulsory and include objective-type questions.
3. Candidates are required to attempt any four questions from Question No. 2 to Question No. 6.
4. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question.
5. Use of non-programmable scientific calculators is allowed.
6. Assume suitable data wherever necessary and mention it clearly.

		(Level/CO)	Marks
Q. 1	Objective type questions. (Compulsory Question)		12
1	Identify the layer which provides service to the user.	Remember	1
	a. Session Layer b. Physical Layer c. Application Layer d. Presentation layer		
2	What is the length of the MAC address?	Remember	1
	a. 8 bits b. 16 bits c. 32 bits d. 48 bits		
3	What is the collection of the hyperlinked document on the internet known as?	Remember	1
	a. HTML b. Email c. www d. Internet		
4	Which of the following layer isn't present in the TCP/IP model but is included in the OSI model?	Remember	1
	a. Network layer b. Session layer c. Application layer d. Transport layer		
5	Identify among the following which belongs to class A.	Remember	1
	a. 121.12.12.248 b. 128.12.12.248 c. 129.12.12.248 d. 130.12.12.248		
6	Identify the switching method in which the message is divided into small packets.	Remember	1
	a. Virtual switching b. Packet switching c. Message switching d. None		
7	Identify the total versions of IP.	Remember	1
	a. 1 b. 2 c. 3 d. 4		
8	The arrangement where all data pass through a central computer is known as	Remember	1
	a. Ring topology b. Mesh topology c. Star topology d. Bus topology		

9	Choose among the following, which are the characteristics of IaaS.				Remember	1
	a. Highly scalable	b. Flexible and dynamic platform	c. Facilitates hardware access to many users	d. All of mentioned		
10	Choose the most important use of cloud computing.				Remember	1
	a. Data privacy	b. Data storage	c. Cost-effective	d. Security		
11	Identify the deployment model among the following.				Remember	1
	a. Private	b. Public	c. Hybrid	d. All of mentioned		
12	From which layer does the data link layer collect packets and encapsulate them into frames for transmission?				Remember	1
	a. Transport layer	b. Physical layer	c. Network layer	d. Application layer		
Q. 2	Solve the following.					12
A)	Explain the different network topologies.				Understand	6
B)	Compare OSI reference model and TCP/IP				Understand	6
Q.3	Solve the following.					12
A)	What are the data link layer design issues? Discuss.				Understand	6
B)	How CRC is used to detect error? Explain with an example.				Apply	6
Q. 4	Solve Any Two of the following.					12
A)	What is DNS? Explain in detail.				Understand	6
B)	Explain go-back algorithm for flow control.				Understand	6
C)	What is cloud computing? Give advantages and disadvantages of cloud computing				Apply	6
Q.5	Solve Any Two of the following.					12
A)	Explain cloud computing deployment models.				Understand	6
B)	Explain the concept of electronic mail and the world wide web.				Understand	6
C)	State the different routing algorithms and describe shortest path algorithm in detail				Understand	6
Q. 6	Solve Any Two of the following.					12
A)	Explain IaaS, SaaS and PaaS services in cloud computing				Understand	6
B)	Describe the classes of IPV4 addressing				Understand	6
C)	Explain the concept of data center in cloud computing.				Understand	6
