

- 9 Which of the following is associated with the handoff in first generation analog cellular systems?
- Breathing cell
 - Locator receiver
 - MAHO
 - Cell dragging
- 10 What is the format of IP address?
- 34 bit
 - 64 bit
 - 16 bit
 - 32 bit
- 11 Many desktops and operating systems include which protocol?
- IPv6 protocol
 - IPv4 protocol
 - Both IPv6 and IPv4 protocol
 - IPv3 protocol
- 12 Which of the following is an example of Bluetooth?
- wide area network
 - virtual private network
 - local area network
 - personal area network
- Q2. Solve the following.
- Write a note on. 6
 - Peer to peer
 - Multimedia
 - Sensor Networks
 - With the help of a block diagram write a short note on what is Internet of Things. 6
- Q3. Solve the following.
- Explain TCP and UDP Protocol in brief. 6
 - Write a note on DNS , NAT and Routers. 6
- Q4. Solve Any Two of the following.
- Define Cellular Internet access and machine to machine used in Local areanetwork. 6
 - Explain mobile IP, ad hoc and infrastructure less network. 6
 - Define MAC level and also describe link protocols used Local area network. 6
- Q5. Solve Any Two of the following.
- Explain the methods of performance Measurements in real time networking. 6
 - Describe resource reservation and scheduling in real time networking 6
 - Define Soft and real time in quality of service information. 6
- Q6. Solve Any Two of the following.
- Write a note on potential challenges in IOT. 6
 - Explain application of IoT for controlling of smart home. 6
 - Explain application of IoT for controlling of sensor body area network. 6
