

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Winter Examination – 2022

Course: B. Tech. Branch : Information Technology Semester :VII

Subject Code & Name: BTITC701 Cloud Computing & Storage Management

Max Marks: 60

Date:27-01-2023

Duration: 3 Hr.

Instructions to the Students:

1. All the questions are compulsory.
2. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question.
3. Use of non-programmable scientific calculators is allowed.
4. Assume suitable data wherever necessary and mention it clearly.

(Level/CO) Marks

Q. 1 Solve Any Two of the following.		12
A) Draw and explain the Cloud Computing Architecture?	L2/CO1	6
B) Explain Deployment Models and Service Models of Cloud Computing?	L2/CO1	6
C) Briefly summarize the benefits of Cloud computing.	L5/CO1	6
 Q.2 Solve Any Two of the following.		 12
A) What is the significance of virtualization in cloud computing?	L5/CO2	6
B) With neat sketch explain the virtualization reference model.	L2/CO2	6
C) Differentiate between Type 1 and Type 2 Hypervisor.	L4/CO2	6
 Q. 3 Solve Any Two of the following.		 12
A) Explain the concept of Map reduce with neat sketch ?	L2/CO3	6
B) Explain the different Components of Hadoop and its advantages ?	L4/CO3	6
C) What is storage virtualization? Explain different types of storage virtualization.	L2/CO4	6
 Q.4 Solve Any Two of the following.		 12
A) Elaborate Google App Engine along with its benefits.	L1/CO3	6
B) Explain AWS with its S3 and EC2 services.	L2/CO3	6
C) Define Backup and mention some requirements for backup.	L1/CO5	6
 Q. 5 Solve Any Two of the following.		 12
A) Which challenges does the cloud security need to face in day to day life?	L4/CO1	6
B) What do you understand by Storage Management along with its process?	L5/CO6	6
C) Explain Vendor Lock-in Problem in cloud computing along with its Risks.	L2/CO1	6

***** End *****

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Regular & Supplementary Winter Examination-2023

Course: B. Tech.

Branch : IT

Semester :VII

Subject Code & Name: CCSM (BTITC701)

Max Marks: 60

Date: 02/01/2024

Duration: 3 Hr.

Instructions to the Students:

1. All the questions are compulsory.
2. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question.
3. Use of non-programmable scientific calculators is allowed.
4. Assume suitable data wherever necessary and mention it clearly.

(Level/CO) Marks

Q. 1 Solve Any Two of the following.		12
A) Explain service models of cloud computing in detail.	CO2	6
B) What are the benefits of using cloud platforms in day to day life?	CO5	6
C) What do you understand by cloud provisioning? Explain its types.	CO2	6
Q.2 Solve Any Two of the following.		12
A) What do you understand by virtualization? Explain its benefits in cloud computing.	CO5	6
B) Explain the virtualization reference model with neat sketch.	CO2	6
C) Differentiate between Type-1 and Type-2 Hypervisor.	CO1	6
Q. 3 Solve Any Two of the following.		12
A) What are the two major types of storage virtualization?	CO4	6
B) What do you understand by Hadoop? Explain its different components.	CO3	6
C) Explain the concept Map reduce with an example.	CO2	6
Q.4 Solve Any Two of the following.		12
A) Explain AWS along with its S3 and EC2 services.	CO4	6
B) How many cloud service roles are provided by Azure?	CO3	6
C) What is the role of Backup in cloud computing? Mention some requirements of backup in detail.	CO5	6
Q. 5 Solve Any Two of the following.		12
A) What are the drawbacks of cloud computing? Explain vendor lock in problem in detail.	CO1	6
B) What do you understand by Storage Management along with its process?	CO3	6
C) Explain the different security goals of cloud computing in detail.	CO2	6

***** End *****

DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE

Regular/Supplementary Winter Examination – 2024

Course:B.Tech

Branch : Information Technology

Semester :VII

Subject Code & Name: BTITC701 Cloud Computing and Storage Management

Max Marks: 60

Date:05/02/2025

Duration: 3 Hr.

Instructions to the Students:

1. Each question carries 12 marks.
2. Question No. 1 will be compulsory and include objective-type questions.
3. Candidates are required to attempt any four questions from Question No. 2 to Question No. 6.
4. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question.
5. Use of non-programmable scientific calculators is allowed.
6. Assume suitable data wherever necessary and mention it clearly.

		(Level/CO)	Marks
Q. 1	Objective type questions. (Compulsory Question)		12
1	Which technology was crucial for the evolution of cloud computing? a. Early mainframe computers b. Virtualization c. Mobile computing d. Personal computers	CO1	1
2	Which of the following is an example of Software as a Service (SaaS)? a. Google Cloud Storage b. AWS EC2 Instances c. Salesforce CRM d. Microsoft Azure Virtual Machines	CO1	1
3	Which of the following cloud deployment models provides cloud services and infrastructure to the general public on a pay-per-use basis? a. Private cloud b. Public cloud c. Hybrid cloud d. Community cloud	CO1	1
4	Which of the following is a type of storage virtualization? a. Network-attached storage (NAS) b. Storage area network (SAN) c. Virtual storage array d. All of the above	CO2	1
5	Which technology is commonly used to implement virtualization at the hardware level? a. Hypervisor b. Firewall c. Load balancer d. DNS server	CO2	1
6	Which of the following is a key extension of MapReduce in cloud computing environments? a. Hadoop b. Docker c. Kubernetes d. Terraform	CO3	1
7	Which of the following is the primary storage system used in Hadoop? a. Google File System (GFS) b. Hadoop Distributed File System (HDFS) c. AWS Simple Storage Service (S3) d. Oracle Cloud Storage	CO3	1
8	Which open-source tool is commonly used for building private or hybrid clouds? a. Microsoft Hyper-V b. OpenStack c. Amazon ECS d. Oracle Cloud Infrastructure	CO3	1
9	Which of the following technologies is commonly used to speed up backup operations by reducing data redundancy? a. Deduplication b. Cloud storage c. Magnetic tape storage d. RAID technology	CO4	1

10	Which backup method would be most suitable for ensuring quick recovery with minimal downtime after a system failure?				CO4	1
	a. Full backup	b. Incremental backup	c. Differential backup	d. Cloud backup		
11	Which of the following is a key parameter to monitor for maintaining the health of storage infrastructure?				CO5	1
	a. CPU usage	b. Storage space utilization	c. Employee login activity	d. Data transmission rates		
12	Which storage security measure helps prevent unauthorized access to data?				CO5	1
	a. Data deduplication	b. Access control policies	c. Performance monitoring	d. Backup scheduling		
Q. 2	Solve the following.					12
A)	Explain Deployment Models and Service Models of Cloud Computing?				L2/CO1	6
B)	Draw and explain the Cloud Computing Architecture?				L2/CO1	6
Q.3	Solve the following.					12
A)	What is storage virtualization? Explain different types of storage virtualization.				L1/CO2	6
B)	Differentiate between Type 1 and Type 2 Hypervisor				L4/CO2	6
Q. 4	Solve Any Two of the following.					12
A)	Explain the concept of Map reduce with neat sketch				L2/CO3	6
B)	Explain the different Components of Hadoop and its advantages				L2/CO3	6
C)	Elaborate Google App Engine along with its benefits.				L3/CO3	6
Q.5	Solve Any Two of the following.					12
A)	Define Backup and mention some requirements for backup				L1/CO4	6
B)	Explain the concept of Information Availability and its importance in Business Continuity.				L2/CO4	6
C)	Discuss the emerging technologies in backup and recovery				L2/CO4	6
Q. 6	Solve Any Two of the following.					12
A)	What do you understand by Storage Management along with its process?				L1/CO6	6
B)	Explain the concept of a Storage Security Framework and its components. How does it help in securing the storage infrastructure?				L2/CO5	6
C)	Explain Vendor Lock-in Problem in cloud computing along with its Risks				L2/CO5	6
*** End ***
